

UWIP Board Apps Information Session

WELCOME!!

MIIP

Marginalized Identities in Physics

UWIP is going to be transforming to MIIP, Marginalized Identities in Physics, soon! Here we include our new mission statement but we will be sending out formal information on our transformation in the coming week.

MIIP Mission Statement

Marginalized Identities in Physics is an organization dedicated to empowering women, Black, Indigenous, and People of Color (BIPOC), LGBTQIA+, neurodiverse, and (dis)abled groups in physics through an intersectional resource network, academic and professional development, and by creating an equitable and accessible community for all. We are committed to reducing the systemic barriers faced by marginalized students to foster diversity and inclusivity in physics.
